Dear working class people, democratic forces!

The "India" coalition is campaigning that if Modi is defeated in the upcoming parliamentary elections, "fascism will fall" and spring shall come. But BJP is not just another party and Fascism is not simply succession of power of one government by another.

What is fascism?
From where does it come?

In the name of Liberalization, Privatization and Globalism (LPG) a recolonization policy designed to exploit and loot our country without limits by multinational and domestic corporations. In order to brutally implement that policy - such as National Education Policy, Farm Laws, Abolition of Labour Laws, Electricity Amendment Act etc - Fascism is marching to establish an open bourgeois dictatorship by brutally oppressing the people and their voice.

Fascism is not merely brought up by the RSS-BJP Brahminical group because its inherent anti-democratic nature. The very motive of fascism is nothing but to establish an open terrorist bourgeois dictatorship by cancelling all democratic rights in order to loot and exploit working class by Indian comprador bourgeoisie such as Ambani, Adani etc and Imperialist forces.

Most of the parties in the "India" coalition are ruling class parties, so they hide this fact from the people. Thus, the people also see as follows: like all other parties that come to power, the BJP is taking revenge on its enemies; it is inciting caste-based, religious rift among the people in order to get electoral gains and oppressing journalists to cripple opinions against it.

All the weapons pointed at the opposition parties and the minorities today are waiting to attack the working class tomorrow. The same fascist mob who are carrying out murderous attacks on minorities are launching murderous attacks on the farmers in Delhi's Singhu border and other

people who are fighting for their basic needs. The same bulldozers which are demolishing the homes of Muslims today are waiting to demolish the homes of people fighting for their basic needs tomorrow. The same Institutions (ED, CBI, IT etc) that have preyed on the opposition for decades will prey on the working class tomorrow.

Martin Neimöller writes of a similar situation under Hitler's regime in Germany:

*“First, they came for the Communists
And I did not speak out
Because I was not a Communist
Then they came for the Socialists
And I did not speak out
Because I was not a Socialist
Then they came for the trade unionists
And I did not speak out
Because I was not a trade unionist
Then they came for the Jews
And I did not speak out
Because I was not a Jew
Then they came for me
And there was no one left
To speak out for me.”*

If we don't feel the pain of these lines now, we never will.

Saffron-Corporate fascism cannot be defeated in elections

How to defeat the fascist RSS-BJP who are trying to establish open dictatorship over the working class?

We, the people of Tamil Nadu, who only see the antics of TN BJP like Annamalai, remain completely unaware of the fascist gang. RSS is the biggest and most powerful fascist terrorist organization in the world so far - a century old deadly fascist organization with two thousand years of Brahminical ideological background.

It has hundreds of fringe organisations nationwide, armed secret and semi-secret fascist mobs, more than 800 propaganda organizations in the name of charities, educational institutions. RSS is such a deadly terrorist organisation. Its might and network are we would not even conceivable. Hundred years of fanatical propaganda has successfully created a mood throughout the country in favour of fascist ideas as a result of these measures.

The opposition parties are in a position where they are unable to counter the “Hindutva” mentality that the RSS has created among the people, and can only get votes by appeasing Hindus by branding themselves as “they are the real pro-Hindus”. Beyond the die-hard survivalists, many who have accepted the RSS views in principle abound in all ruling-class opportunist parties at all levels.

Apart from conducting fascist classes in the name of Shakhas on a daily basis, the shadow armies of the RSS, which are given weapons training including shooting and swordsmanship, are ready to launch an attack on the working class at any time. It is such forces that barge in and slaughter people when they are in protest against the fascist government. This is exactly what we have seen in the farmers' protest and the anti-CAA protests too.

It is true that other parties also have their own mercenaries and oppress the people who fight against them. The soldiers of the RSS are not such mercenaries but they are armed from top to bottom with Brahminical ideology, the forces are fascist infused in every atom of their blood. For example, the men who shot dead Kalburgi, Gauri Lankesh and others who fought for the welfare of the working class publicly openly confessed that “the gun in their hand is like Krishna's chakra, it destroys the demons”. The dangers of this can be seen from their open confession.

Moreover, over the past decade, they have had tremendous success in infusing fascists into all state institution, including the judiciary, the military, the administration, the police of all states, and the ruling class. At the top of this, they had broken the tradition that the commanders of the three forces such as the army, air force and navy should never meet, and introduced a new position of the supreme commander of the three forces in the army. Even if the BJP is defeated in tomorrow's elections, they will stage riots with their shadow armies. The country faces the danger of a coup with the army and other organs of the government standing by and establishing a fascist regime.

The opposition parties are in a position to defend themselves without any weapons to face such a fascist organization. So, it is suicidal to believe that fascism will end abruptly if we vote for “India” alliance.

Anti-fascist struggle is not possible without an anti-fascist army

Can the RSS and the fascism it brings, which has grown into a huge deadly organization to facilitate the exploitation of imperialist financial capital, spread its roots to the brains of the country, infiltrated all the organs of the state successfully, spread fascist ideas to the majority of the people, be defeated in a single day by voting?! Is there any point in relying on ruling class parties to prevent the establishment of a very brutal open dictatorship over the working class?! Think it through! We, the working class, must put aside the election illusions spread by the electoral parties and prepare for a long and persistent battle. We must unite as one force to defeat the fascist forces head-on. There is no easy and short-cut ways.
